- **Leadership – Many people are leaders and never know it!**
Current and future leaders need to understand the the concepts and opportunities for effective leadership. Many of our current leaders are handicapped because they never know that they are leaders.
- **Vision – If you're not clear where you are going or where you want to be, where do you think you will end up?**
Vision is the key to purpose and direction in life. This presentation addresses the concepts to inspire others to develop their vision! It helps to understand and facilitate many of our decisions, big and small.
- **Volunteerism – The great untapped and misunderstood resource!**
Many people miss the opportunity to serve or be served because they miss the underlying concepts. Many people will serve for free and better than if they were paid.
- **Education – We have a broken system full of hard working people called teachers.**
Our system can be repaired but first we must understand what is broken. We also need to consider what steps can be taken to fix it.
- **Safety – It doesn't happen by accident!**
Safety can be summed up into a set of concepts and doesn't have to commit us to living in a bubble. With a little guidance and some good information, most people can be safe in their environments.
- **Custom Topics – Topics customized or tailored to your group as well.**
Have a topic that you want researched and presented? We can do that as well. Just ask.
